2.0 | Insurance Agreement

1. What the policy provides

- Covers your vehicle for the cost of repair or replacement (including labour) of any Covered Components in the event that any such Covered Component (as listed in Schedule 1: Covered Components) is subject to sudden and unforeseen mechanical or electrical breakdown unless such component fails due to negligence or reaching the end of its working life due to expected deterioration.

Please note: replacement of drive belts, filters, lubricants, antifreeze and fluids required because of the failure of a Covered Component through sudden and unforeseen mechanical or electrical breakdown is covered by this insurance policy and if such breakdown causes damage to another Covered Component, we will repair or replace that Covered Component but not any damage which is cosmetic in nature.

The total aggregate amount payable for each year that you are covered under this policy (the "claims limit"), including any additional benefits as listed in section 6: Additional Benefits, and including any applicable VAT, will not exceed the market value of your vehicle (according to motor-trade guides) at the time of the claim. The market value of your vehicle may reduce during your cover period.

The agreement is limited to the breakdown of each included part on only one occasion during the period of the agreement.

If you have purchased the additional breakdown & Recovery, please see the separate RAC Breakdown and Recovery terms and conditions contained in a separate booklet for full details.

Suitability: This insurance policy is suitable only for persons who do not already have insurance that covers the vehicle for the risk described under section 1: What the policy provides.
